

## INTERCARTO – INTERGIS 13

### SUSTAINABLE DEVELOPMENT OF TERRITORIES: GIS THEORY AND PRACTICE

12 – 14 August 2007, Khanty-Mansijsk, Russian Federation

20 – 24 August 2007, Yellowknife, Canada

#### INFORMATION LETTER # 1

International Cartographic Association, Federal Service of Geodesy and Cartography of Russia, Government of Khanty-Mansi Autonomous Region, M.V.Lomonosov Moscow State University, Ugor State University in Khanty-Mansijsk, NPC Monitoring (Khanty-Mansijsk) together with Earth Sciences Sector of Natural Resources Canada in collaboration with the Canadian Institute of Geomatics (CIG) and the NWT Centre for Geomatics - Government of the Northwest Territories are organizing within the framework of the International Polar Year (IPY) the international conference INTERCARTO-INTERGIS 13 in Khanty-Mansijsk and Yellowknife (Canada) in 2007. The Yellowknife part of INTERCARTO-INTERGIS 13 will be held jointly with the IPY GeoNorth 2007 Conference 20-24 August 2007 ([www.ipygeonorth.org](http://www.ipygeonorth.org)).

The main topics of INTERCARTO-INTERGIS 13:

- Geoinformational insurance of sustainable development of territories (incl. geopolitical processes and management of territories) with special focus on northern territories
- Geospatial information on experiences of oil and gas extraction adequate to sustainable development criteria
- Medical-Geographical aspects of sustainable development (mapping, indicators etc.)
- Sustainable development and tourism (problems and perspectives)
- Geospatial information on natural and cultural heritage of the Arctic.
- Geospatial data on aborigine traditional knowledge on land management and environment monitoring practices.
- Geospatial information on nature capital of pristine territories.
- Education for sustainable development.

For registration we need to know: your full name, place of employment, academic degree and status, address, phone, fax, e-mail, paper's title, the speaker, co-authors.

An exhibition is also planned to be held during the conference.

Reference directions: GIS projects, technology, software and hardware, digital maps and other products, training aids, consulting, books and periodicals. If you would like to take part in the exhibition, please, fill out and send an Exhibition Participant's application form no later than February 15, 2007. Payment terms and conditions will be set individually for every participant.

Conference working languages: Russian or English (on demand), English only in Yellowknife.

Conference participant's registration fee

Russian Federation: 50 \$,

Others: 110 \$.

The registration fees for the Yellowknife part of the Conference will be the same as for the IPY GeoNorth 2007 Conference and will allow participation in both events. For information on this common registration fees, please see at [www.ipygeonorth.org](http://www.ipygeonorth.org).

Submit paper for publication: April 15 2007
